This energy audit will help you decide the size of your off-grid solar panels, the capacity of your off-grid solar batteries, and the overall design of your system.

Serving residential, commercial, industrial, and government clients across South Africa and African markets with advanced photovoltaic storage and BESS solutions.

Designed for various applications, from off-grid power to backup solutions, our BESS helps optimise energy use, reduce costs, and improve system reliability. With scalable and ...

These cabinets are designed with a focus on modularity, safety, and efficiency, making them ideal for both utility-scale storage and distributed energy resources ...

The BESS is a versatile solution suitable for various applications, including utility-scale grid balancing, mini-grid solutions, energy arbitrage, peak shaving, and ...

Off grid solar systems combined with lithium battery storage are transforming Africa's energy landscape. From rural electrification to commercial microgrids, BOOSTESS delivers reliable, scalable, and cost ...

Stay informed about the latest developments in communication cabinet manufacturing, battery storage solutions, power system design, IP rating standards, and industrial cabinet solutions for African ...

The table below compares the five biggest BESS installations operating or expected to be operating in South Africa by January 2025.

The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications.
