Southern Europe has become a hotbed for liquid flow battery development, particularly in countries like Spain, Italy, and Greece. With abundant solar resources and growing wind energy installations, ...

ESS Tech, Inc., a manufacturer of long-duration iron flow batteries for commercial and utility-scale energy storage applications, has announced that ...

A significant winner is Iberdrola España, which was awarded energy storage projects in six autonomous communities in Spain for a total of EUR170 million (USD 198 million) to build batteries, ...

Our findings demonstrate that the success of the Spanish energy transition depends not only on continued cost reductions in battery technology ...

The programme aims to deploy a long-duration energy storage (LDES) solution that could provide maximum power for eight hours, and H2 won ...

The bid for a "long duration" system, capable of providing maximum power for 8 hours, was won in collaboration with Spanish companies. The ...

The development of sPEEK membranes is a remarkable achievement that highlights the potential of flow batteries to support renewable energy ...

This pumped-storage project, approved in 2024, has a hybrid battery of 15 MW and 7.5 MWh, enabling the surplus energy from the dam to be stored. The ...

Spain's battery energy storage market is at a critical point. Despite being a leader in renewable energy deployment in Europe, the country has only 18 MW of ...

Spanish liquid flow energy storage battery

Explore Spain's top energy-storage battery innovators, from solid-state disruptors to modular system specialists. Learn how Dawnice stands out in ...
