Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs.

Whether you're powering a remote agricultural site, supporting early-stage infrastructure, or replacing diesel on a mining project, our container delivers ...

The system is powered by a three-phase Solis inverter, providing reliable energy generation, strong efficiency, and reduced operating costs for this busy childcare facility.

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular design for easy ...

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, ...

Discover the Prolectric ProCharge Solar BESS - a smart, three-phase solar battery energy storage system that cuts diesel use, lowers costs, and reduces CO₂e. ...

Introduce power to any location with our Solar Energy Container. It's a transportable, fast-to-deploy source of green energy, housed in a standard-sized ...

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. ...

The Aldelano Solar ColdBox(TM) is an industrial-grade, portable, solar-powered cold storage mini-warehouse that provides a completely renewable power source, ...

Three-phase solar-powered container for Dublin s catering industry

We have a range of modular off grid container, (or other) based power supplies. The beauty of our systems is they are completely expandible in terms of PV Panels, Inverter Kw output/phases and ...
