Our solar roof panels are a 2-in-1 building-integrated photovoltaic (BIPV) solution for your roof. The high-tech monocrystalline solar cells ...

Luxury solar roofs for beautiful structures and forever homes. We developed the first fully-integrated solar shingle system in North America.

Our Building Integrated Photovoltaic (BIPV) System seamlessly incorporates solar cells into roofing structures, eliminating the need for traditional mounting racks.

This new configuration expands our IN-ROOF SYSTEM range and offers an optimal solution for roofs with limited space. The system combines performance, sleek ...

Kaneka's roof-integrated photovoltaics (RIPV) revolutionizes solar technology with a seamless integration process, ensuring easy installation for users looking to ...

Embrace the synergy of style and sustainability with Solar Full Roof, a 2in1 integrated solar roof. Seamlessly integrating advanced solar ...

Dedicated flashings for the SOLROOF system protect the integrated photovoltaic roof against the forces of wind and roof leakage. They are made of sheets with the same palette of coatings and colours as ...

With global energy prices rising 23% year-over-year according to the 2024 Global Renewable Energy Report, villa owners are scrambling for sustainable upgrades. Photovoltaic roof ...

Imagine your villa's rooftop transforming into a silent energy factory - that's the magic of solar power generation. For villa owners, solar energy isn't just about environmental consciousness; it's a smart ...

The panels can be installed directly on the roof, have no keel or self-tapping nails, and will not damage the

Villa photovoltaic roof integrated panel

roof to ensure waterproofing and thermal insulation performance.
