On This PageSpeed RegulationsPavement MarkingsMaintaining A Space CushionCurvesChanging LanesPassingWhen a driver makes an unexpected or quick movement, other drivers need time to react. The only way you can be sure you have enough time to react is by leaving plenty of space between your vehicle and the vehicles around you. That space becomes a "space cushion." You should try to keep a cushion of space ahead, to each side and behind you. See more on [oregon.gov/FHWA/FHWA](https://www.oregon.gov/FHWA/FHWA) - MUTCD - 2003 Edition Chapter 3C - TransportationObstructions within the roadway shall be marked with a Type 1 or Type 3 object marker. In addition to markers on the face of the obstruction, warning of approach to the obstruction shall be given by ...
