This study focuses on the hybridisation of existing wind power plants with different shares of solar photovoltaic capacity and investigates how these power plants can reduce their combined ...

Wind farm projects are taking shape both onshore and offshore all over the world. These projects are being scaled up to unprecedented sizes, ...

As a result of new solar projects coming on line this year, we forecast that U.S. solar power generation will grow 75% from 163 billion ...

China is rapidly scaling up its solar and wind energy infrastructure, accounting for nearly three-quarters of all utility-scale projects currently under ...

China is advancing a nearly 1.3 terawatt (TW) pipeline of utility-scale solar and wind capacity, leading the global effort in renewable energy buildout. This is in addition to China's already operating 1.4 TW ...

Shanghai has approved the Fengxian 1# offshore photovoltaic project, the first commercial-scale solar-wind hybrid of its kind in China.

On this page, you can explore our database of planned wind projects in the US. Each month, we track projects in development and update our list of the largest ...

Next Generation Wind and Solar Power (Full Report) - Analysis and key findings. A report by the International Energy Agency.

What We Do We are a market-leading, independent power producer and service provider, delivering: wind (onshore and offshore), solar photovoltaic, storage, ...
