With the P500E, you can transfer energy bi-directionally to the battery, grid and DG, helping you to achieve more functionality and maximise the benefits of your energy storage system.

It can solve the problem of difficult access to commercial power in scenarios such as remote sections, forests, and mountainous areas, providing a one-stop solution for sites.

From temporary construction sites to permanent renewable energy hubs, Zagreb's outdoor power requirements demand smart, scalable solutions. With adaptable sizing options and advanced ...

Designed for long-term outdoor operation, the new 60 kWh system features an IP55-rated enclosure, ensuring strong protection against dust, rain, and harsh environmental conditions.

This guide provides step-by-step instructions on how to install your R-BOX-OC outdoor solar battery cabinet, including site selection, assembly, wiring, and system testing. [pdf]

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration.

Our cabinets are adaptable to the specific requirements of your projects, fully compliant with industry standards (IEC61439-2), and they have been optimized to reduce investment and maintenance costs.

These cabinets are ideal for outdoor base stations in remote, mountainous, or desert regions, especially where
